ESTIMATES FOR CIVIL SERVICES, 1894-95.

MEMORANDUM BY THE FINANCIAL SECRETARY TO THE TREASURY.

1. GENERAL FIGURES OF THE ESTIMATES.

THE Civil Service Estimates for 1894-95 show a net increase of 544,658*l.* over the corresponding grants for 1893-94, included in the Appropriation Act, 1893. The net charge upon taxation in respect of these services is estimated at 17,538,285*l.*, an increase of about $3\frac{1}{4}$ per cent. By far the largest part of the increase arises upon Class IV. "Education, Science, and Art," which shows a growth of no less than 469,864*l.*, or more than 5 per cent. Class I., "Public Works and Buildings," has grown by 88,966*l.* Class III., "Law and Justice," has decreased by 45,519*l.*, and the remaining four classes show a net increase of 31,347*l.* No qualifications are required this year in making these comparisons.

The number of Votes, 108, is the same as in the current year, the contribution for the Tasmanian Exhibition of 1894-95 taking the place of that for the Chicago Exhibition of 1893.

2. FORM OF ESTIMATES.

No change has been made in the form of any of the Estimates, in the direction of a further appropriation of receipts in aid of expenditure, or otherwise.

In the statement of totals of the several classes, given in the Abstract prefixed to the Estimate Volume, the gross figures and the appropriations-in-aid have, in accordance with a promise given in Parliament, been stated in addition to the net amounts.

To the abstract of the several Votes (pages iv. to xi.) a new column has been added, giving the net audited expenditure from each Vote in 1892-93, as stated in the Appropriation Accounts of that year; this change was suggested from a Parliamentary source.

The details of the Survey Vote (Class I., No. 10) have been entirely recast, in consequence of Parliamentary criticism, and are now designed to exhibit the general programme of the work of that service in the year and for the future.

The title of Vote 7 in Class IV. has been enlarged so as to include the new grants for Welsh Intermediate Education; and that of Vote 3 in Class VII. has been changed from "Pleuro-pneumonia" to "Diseases of Animals," so as to cover expenditure for the Suppression of Swine Fever.

3. SPECIAL ENGLISH, SCOTCH, AND IRISH SERVICES.

The purely English and Welsh Votes show a net increase of 316,503*l.*, the only important item being that of 330,871*l.* for Elementary Education.

The purely Scotch Votes show a net increase of 54,405*l.*, which is more than covered by the increase (62,376*l.*) under the head of Elementary Education.

Among the Irish Votes, that for Elementary Education shows a net increase of 29,823*l.*; there is also an automatic increase of 24,102*l.* in the provision for Railway Expenditure. On the other hand, there is a net decrease of 26,131*l.* on the Irish Votes in Class III. (Law and Justice), including 14,000*l.* on the Constabulary; and on the whole the purely Irish Votes show a net increase of 20,110*l.*

In the foregoing figures no account has been taken of the Votes which contain English, Scotch or Irish items combined with others. It would be difficult to attempt an analysis of such Estimates.

4. GENERAL REMARKS ON ESTIMATES.

The tendency to growth in the "Maintenance" Sub-heads, noticed in last year's Memorandum, still continues, apart from Special Services, and is mainly due to increase of wages. There is also an increase upon many "Fuel, Light, &c.," Sub-heads, due to the anticipation of higher prices for coal. Apart from these matters there is no important influence affecting the Estimates generally which requires special notice.

The principal changes under the several Votes may now be referred to in detail.

5. CLASS I.—WORKS AND BUILDINGS.

Vote 4. Admiralty, Extension of Buildings—Decrease, 10,000*l.*—The new block is expected to be completed and ready for occupation in the course of the year.

Vote 5. Miscellaneous Legal Buildings, Great Britain—Increase, 11,559*l.*—This is more than accounted for by the large sum of 21,500*l.* provided as the Government contribution towards the purchase of land for the enlargement of Glasgow Court House.

Vote 6. Art and Science Buildings, Great Britain—Increase, 5,663*l.*—Provision is made of 4,500*l.* for temporary buildings at South Kensington for the Science and Art Department; and of 3,850*l.* for the purchase of the freehold of certain houses adjacent to the Bethnal Green Museum to secure the safety and amenity of that institution.

Vote 7. Diplomatic and Consular Buildings—Decrease, 5,040*l.*—Due to approaching completion of new buildings at Cairo and in the Mozambique district, and to diminished requirements in China.

Vote 8.

Vote 8. Revenue Department Buildings—Increase, 34,977*l.*—Of this total increase, 6,695*l.* arises upon Inland Revenue Buildings, and is accounted for mainly by the cost of the new offices in course of construction at Manchester.

Post Office and Telegraph Buildings show a growth of 29,117*l.*, of which 21,500*l.* is for new works. This Estimate has been very carefully considered, and the mode in which the details are given has been somewhat altered, partly to meet suggestions made in Parliament. In framing it, special regard has been had to the advantage of pushing forward work already in hand, rather than beginning new buildings. As regards London it is expected that all the new buildings at head or district offices, except the final section of those at Mount Pleasant, will have been completed by the 31st March 1895. In the provinces of England the principal works in hand during the year will be at Cardiff, Leeds, Liverpool (where the new office will be begun in the course of the year), and Nottingham, none of which can be completed during the year. In Scotland the additions at Edinburgh and Glasgow will be completed, and the new office at Dundee begun.

Vote 9. Public Buildings, Great Britain—Increase, 19,743*l.*—Provision of 5,000*l.* is made for the new National Portrait Gallery, including furniture and cost of removal. For the extension of the Patent Office, 12,000*l.* is taken, which will suffice to complete the second block, and begin the third one. 35,000*l.* is provided, as in the current year, for the additional Record Office Buildings, the work on which should be far advanced by the end of the year. Sanitary improvements in various public offices require 7,000*l.* on this Vote, besides 4,000*l.* for Buckingham Palace on the Vote for Royal Palaces, and 1,000*l.* for Somerset House on that for Revenue Department Buildings. In Scotland, the new Observatory Buildings are expected to require the large sum of 15,000*l.*

The Maintenance Sub-head of this Vote shows an increase of 3,330*l.*, and a reduction of 5,500*l.* is expected in the amount of receipts appropriated in aid of the Vote.

Vote 13. Rates on Government Property—Increase, 21,744*l.*—Of this considerable total, 16,000*l.* arises in England, and is due partly to new properties, partly to increase of valuations, and partly to the rise of rates in urban districts, in which most of the Government property is situated. For Scotland, an additional sum of 5,700*l.* is provided, mainly in consequence of an alteration in the dates of payment.

Vote 14. Public Works and Buildings, Ireland—Decrease, 13,027*l.*—This is due to the completion, or approaching completion, of the new Ordnance Map Store, the new Belfast Constabulary Barracks, the new Parcels Post Dépôt in Dublin, the drainage works on the Suck and those on the Shannon. On the other hand, special provision of 6,000*l.* is made towards improving the Harbour and Railway Station at Kingstown. Some alterations have been made in the details of the Estimate with a view to simplicity, and to closer correspondence between the information laid before Parliament and the actual facts as they will be exhibited in the Appropriation Account.

Vote 15. Railways, Ireland—Increase, 24,102*l.*—Out of this total, the sum of 22,304*l.* represents the first instalment of the second annuity payable to the National Debt Commissioners, in exercise of the power, given to the Treasury by

Section 4 of the Public Accounts and Charges Act, 1891, to capitalise perpetual annuities under the Light Railways Act, 1889, and replace them by terminable annuities.

6. Class II.—CIVIL DEPARTMENTS.

Vote 4. Home Office—Increase, 8,166*l.*—Mainly due to a further increase in the numbers of Inspectors, &c., of Factories and of Mines, with consequent travelling expenses, &c.

Vote 9. Mercantile Marine Fund.—Provision of 11,000*l.* is made for electrical communication with lightships and lighthouses.

Vote 10. Bankruptcy Department of the Board of Trade.—There is an increase of 12,114*l.* in the gross provision under this Vote, mainly in consequence of the growth of the work under the Companies' (Winding-up) Act, 1890; but as the service is a self-supporting one (from fees and interest on invested funds), only a nominal sum has to be voted for it.

Vote 12. Charity Commission—Increase, 2,706*l.*—This is mainly due to the provision for local inquiries into the charities of certain counties, half of the cost of which is provided by the County Councils concerned.

Vote 22. Registrar-General—Decrease, 5,985*l.*—Due to completion of the Census work, at a total cost considerably below the estimate, and below the actual cost of the Census of 1881.

Vote 23. Stationery Office—Net Increase, 7,773*l.*—An increase of 3,000*l.* is provided for in the cost of printing for public departments, of 6,500*l.* in that of binding, under new and more highly-priced contracts; and 1,000*l.* in that of Parliamentary Debates, to meet the increased cost of reporting. On the other hand, the provision for paper is reduced by 7,000*l.*, prices being now much below those on which the Estimate for the current year was based.

Vote 28. Fishery Board, Scotland—Increase, 6,881*l.*—Out of this total, 5,000*l.* represents the cost of a new cruiser for the Board, replacing the present sailing-vessel; and most of the remaining increase is consequent upon the greater productiveness of the herring brand (the net profits of which are applied by the Board in aid of the fisheries) in 1893 than in 1892.

Vote 30. Registrar-General, Scotland—Decrease, 3,417*l.*—Due to completion of the Census work.

Vote 35. Local Government Board, Ireland—Increase, 1,584*l.*—Due mainly to increased activity under the Labourers' Acts.

7. Class III.—LAW AND JUSTICE.

Vote 3. Supreme Court of Judicature.—This Vote, after the large decreases of recent years, has become practically stationary in its total, but there is a decrease of 1,278*l.* upon the Sub-head for Salaries, due to further reductions in the Supreme Court Staff.

Vote 5.

Vote 5. County Courts—Net decrease, 6,138*l.*—There is additional expenditure arising from increase of business ; but this is more than covered by the growth of fees.

Vote 8. Prisons, England and the Colonies—Decrease, 5,898*l.*—The decrease in the average numbers of prisoners in confinement, which has been so marked a feature in recent years, has now almost ceased ; some further reductions have however been effected in the cost of the service. There is, on the other hand, a reduction of 11,000*l.* in the Estimate of Extra Receipts.

Vote 11. Law Charges and Courts of Law, Scotland—Net Decrease, 7,893*l.*—This decrease is to a large extent a matter of account only, arising from the inclusion in the Estimate of five quarters' yield of certain branches of receipt.

Vote 15. Law Charges, Ireland—Decrease, 3,165*l.*—Due to administrative reforms and diminished requirements for prosecutions.

Vote 17. Irish Land Commission—Decrease, 3,805*l.*—There is a reduction of 4,750*l.* in the sum taken for additional (temporary) Assistant Commissioners, Inspection and Valuation.

Vote 18. County Court Officers, &c.—Decrease, 4,214*l.*—One Divisional Commissioner and two Resident Magistrates have been reduced ; and the saving would have been even greater had it not been for increased expenditure in connection with local registration of title.

Vote 20. Constabulary of Ireland—Net Decrease, 14,000*l.*—There is a reduction of 22,103*l.* on the effective Sub-heads of this Vote, due to reductions in the force and diminished requirements for subsistence and travelling. On the other hand, the non-effective charge increases by 5,646*l.*, and, in consequence of the reduction of the extra Police locally chargeable, there is a diminution of 2,457*l.* in the estimated receipts to be appropriated in aid of the Vote.

8. Class IV.—EDUCATION, SCIENCE, AND ART.

Vote 1. Public Education, England and Wales—Increase, 330,871*l.*—As a Supplementary Estimate of over 200,000*l.* will be required for this service in the current year, the actual increase between the two years will not be so great as the above figure. In 1879–80 there was an increase of 334,804*l.* over the original Estimate for 1878–79, the totals then standing at about two-fifths of their present amount. On the present occasion every Sub-head shows an increase. The principal causes are (i.) increase of about 4 per cent. in numbers of day scholars, affecting both the ordinary grants and the fee grants ; (ii.) increase of 105 per cent. in numbers of evening scholars ; (iii.) additional provision (5,000*l.*) for pensions to teachers ; (iv.) new provision (6,000*l.*) for blind and deaf children ; (v.) provision for an increased number in training colleges for teachers.

Vote 2. Science and Art Department—Increase, 47,107*l.*—Of this total the sum of 33,850*l.* arises under the Head of Drawing in Elementary Schools and Training Colleges, and is, therefore, intimately connected with the increase of day scholars under the preceding Vote and that for Scotch Education. Grants in aid of Science instruction show an increase of 7,055*l.* ; Art ditto, 2,695*l.* ; the cost of inspection and examination has risen by 5,418*l.* ; and 1,500*l.* additional is provided for Technical Education in Ireland.

Vote 7. Universities and Colleges, Great Britain, and Intermediate Education, Wales—Net Increase, 3,094*l.*—A grant of 3,000*l.* appears for the first time for the newly-created University of Wales, and also provision of 2,094*l.* for Intermediate Education in the Principality, under the Act of 1889.

Vote 9. Public Education, Scotland—Net Increase, 62,376*l.*—Due to (i.) an increase in the numbers of day and evening scholars, especially the latter, and in the average grants earned by them ; (ii.) an addition to the Fee Grant proportionate to that required in England.

Vote 11. Public Education, Ireland.—Net Increase, 29,823*l.*—The grants to National Schools are expected to increase by 27,000*l.*, in consequence of the Irish Education Act of 1892.

9. Class V.—FOREIGN AND COLONIAL.

Vote 1. Diplomatic and Consular Services—Net Decrease, 16,866*l.*—There is a decrease of 22,000*l.* on “special missions,” due to the cessation of the charge for the Anglo-Portuguese East African Boundary Commission, and a large decrease in that for the Behring Sea Arbitration, and in that for Uganda. The salary Sub-heads of the Vote are practically stationary, but there is a decrease of 2,648*l.* in the estimated yield of consular fees.

Vote 3. Consular Services, including South Africa—Net Increase, 9,859*l.*—The Grant-in-aid of British Bechuanaland rises from 82,500*l.* to 100,000*l.* ; on the other hand, that for the Sierra Leone steamer (2,900*l.*) disappears, while that for Swaziland falls from 7,000*l.* to 2,000*l.*

Vote 4. Subsidies to Telegraph Companies—Net Increase, 4,700*l.*—Due to the completion of the cable to Mauritius, for which a full year’s subsidy has to be provided.

10. Class VI.—NON-EFFECTIVE.

Vote 1. Superannuations, &c.—Net Increase, 6,829*l.*—This arises upon the non-effective list for Foreign and Colonial Services, and for the Education and Science and Art Departments. Two special compassionate gratuities of 1,000*l.* and 500*l.* are also provided for.

Vote 3. Savings Banks and Friendly Societies’ Deficiency—Increase, 6,361*l.*—Due to the reduced return obtained on investments of Savings Bank Funds, while the rate of interest payable to the Trustees remains unaltered.

Vote 4. Pauper Lunatics, Ireland—Increase, 2,602*l.*—Automatic increase, due to growth in the numbers in respect of whom this contribution is made in aid of the county cess.

11. Class VII.—MISCELLANEOUS.

Vote 1. Temporary Commissions—Net Increase, 3,282*l.*—The requirements of the Commissions newly provided for in 1894–95 are greater than those of those which expire. The principal item is 7,000*l.* for the moiety of the cost of the Opium Commission, which falls on Imperial funds.

Vote 3. Diseases of Animals (formerly called Pleuro-pneumonia)—Increase 20,000*l.*—Out of the total provision of 85,000*l.*, 50,000*l.* is assigned to Swine Fever, being the maximum amount allowed under the Contagious Diseases (Animals) Act, 1893. Besides this amount balances amounting probably to nearly 40,000*l.* will be available towards this Service.

Vote 4. Highlands and Islands of Scotland—Decrease, 5,000*l.*—No provision needed for “minor roads” in 1894–95.

Vote 5. Repayment to the Local Loans Fund—Increase, 10,337*l.*—Provision has to be made for the items written off the Assets of the Fund by the Public Works Loans (No. 2) Act, 1893.

Vote 7. Hobart (Tasmania) Exhibition—2,000*l.*—This takes the place of the 20,000*l.* provided in the current year for the Chicago Exhibition.

12. REVENUE DEPARTMENTS.

Customs—Net decrease 1,349*l.*—There is a growth of 4,065*l.* upon the sub-heads for salaries and travelling ; but this is more than counterbalanced by a decrease of 1,600*l.* in the sum required for vessels and boats, and of 4,419*l.* in the non-effective charge.

Inland Revenue—Net decrease 27,375*l.*—This large decrease is explained by a reduction of 22,500*l.* in the payments to assessors and collectors in Great Britain, consequent on 1893–94 having been a year of new assessment to income tax under Schedules A. and B., and to House Duty ; and by a decrease of 13,100*l.* in the cost of copies of poor rates, &c., due to the same cause.

On the other hand, the salary sub-heads show an increase of 3,132*l.*, and the non-effective charge an increase of 3,340*l.*

Post Office—Net increase 247,270*l.*—The principal items of increase are as follows :—

	£.
Salaries and Wages - - - - -	197,150
Uniform Clothing - - - - -	41,550
Conveyance of Mails by rail and road, and cost of mail bags	47,270
Non-effective - - - - -	9,210

On the other hand, the provision for purchase of sites is 13,000*l.*, showing a reduction of 37,000*l.*, while it has been found possible to reduce by 17,940*l.* the provision for manufacture of stamps.

The increase upon uniform clothing is not permanent, but is due to the simultaneous incidence upon 1894–95 of the charge for the biennial supply of great-coats and of that for two issues of those garments which are provided three times in two years.

The additional cost of mails by road, 25,000*l.*, is due partly to the high price of forage and partly to new services, mainly for the Parcel Post ; the latter, it may be hoped, will result in some increase of revenue.

Packet Service—Net increase, 13,542*l.*—Due mainly to an increase of 11,800*l.* in the provision for the Dover and Calais service.

Telegraphs—Net increase, 37,920*l.*—The principal increases are :—

	£.
Salaries and Wages - - - - -	79,828
Uniforms (<i>see</i> under Post Office) - - - - -	13,490
Non-effective - - - - -	5,521
Telephones, annuity to repay expenditure from borrowed money - - - - -	14,954

On the other hand, there are savings upon :—

Materials; the reserves of Telegraph Poles being now complete - - - - -	23,000
Sites - - - - -	14,750
Telegraph Works; owing to diminished requirements -	34,350

By Sect. 82 of 19 & 20 Vict. c. 108, a Registrar was paid 120 *l.* for the first 200 plaintiffs entered in a year in a Court; and 5 *l.* for every 25 plaintiffs entered to 1,000, and then by 4 *l.* till the plaintiffs reach 6,000; out of this salary the necessary clerks are paid by the Registrar. When the plaintiffs reach 6,000, a net salary of 650 *l.* is paid, and 12 *l.* 10 *s.* for every additional 500 plaintiffs up to 8,000, making a maximum salary of 700 *l.*, with an allowance for clerk hire (51 & 52 Vict. c. 43, s. 188).

By Sect. 14 of 29 Vict. c. 14, the above scale was reduced, as regards Registrars thereafter appointed, to 100 *l.* for the first 200 plaintiffs, and 4 *l.* for every 25 plaintiffs up to 6,000, instead of 5 *l.* and 4 *l.*, as last stated, and is so reduced by 51 & 52 Vict. c. 43, s. 45.

By 51 & 52 Vict. c. 43, s. 37, on a vacancy occurring in the office of High Bailiff, the Registrar, if appointed subsequent to 1866, must perform the duties of High Bailiff, unless the Lord Chancellor, with the consent of the Treasury, otherwise determine. His remuneration is a sum equal to one-fifth of his *net* salary as Registrar, with an allowance for the service and execution of process. The salary of a Registrar from all sources may not exceed 1,400 *l.*

By Sect. 46 of 51 & 52 Vict. c. 43, the High Bailiffs are paid partly by salaries and partly by allowances, which vary in amount according to the circumstances of each district.

* The remuneration payable for these services is a fixed proportion of the amount levied by Bankruptcy Fee Stamps in the cases dealt with in County Courts. These stamps amount to about 36,000 *l.* For scale, see House of Commons Paper, 148 of 1888, page 11.

† The remuneration payable for these services is a fixed proportion of the fees received under the Companies (Winding-up) Act in the cases dealt with in County Courts.

* Prior to 1850 the Procurators Fiscal were remunerated by fees for all business chargeable in Exchequer; and the above Salaries, which include clerical assistance and office expenses, were fixed, with reference to the amount of fees in each case, on an average of years. In addition to these Salaries the Procurators Fiscal receive allowances from County Rates for business not falling under the rule of payment in Exchequer, and occasional fees from other rates, and from private parties for prosecutions under special statutes. The amounts of these extra allowances for the year ended 31st March 1893 are stated in the first column above. The extra allowances in several cases include necessary outlay. Procurators Fiscal receive also allowances from public funds for services not connected with their office, which are stated under "Extra Remuneration" on the Appropriation Account of the Vote.

H.—Section 1 (i) of the Elementary Education Act, 1891, provides that “after the commencement of this Act, there shall be paid out of moneys provided by Parliament, and at such times and in such manner as may be determined by Regulations of the Education Department, a grant (in this Act called a fee grant), in aid of the cost of Elementary Education in England and Wales, at the rate of 10s. a year for each child of the number of children over three and under 15 years of age in average attendance at any public elementary school in England and Wales (not being an evening school), the managers of which are willing to receive the same, and in which the Education Department are satisfied that the regulations as to fees are in accordance with the conditions in this Act.”

I.—Section 12 of the Elementary Education (Blind and Deaf Children) Act, 1893, empowers the Education Department to give aid from the Parliamentary Grant to a certified school in respect of education given to blind or deaf children to such amount and on such conditions as may be directed by or in pursuance of the Minutes of the Education Department in force for the time being.

K.—Section 97 of the Elementary Education Act, 1870, provides, *inter alia*, that “where the School Board satisfy the Education Department that in any year ending the 29th September the sum required for the purpose of the annual expenses of the School Board of any school district, and actually paid to the Treasurer of such Board by the rating authority, amounted to a sum which would have been raised by a rate of 3d. in the pound on the rateable value of such district, and any such rate would have produced less than 20l., or less than 7s. 6d. per child of the number of children in average attendance at the public Elementary Schools provided by such School Board, such School Board shall be entitled, in addition to the annual Parliamentary Grant in aid of the public Elementary Schools provided by them, to such further sum out of moneys provided by Parliament, as, when added to the sum actually so paid by the rating authority, would, as the case may be, make up the sum of 20l., or the sum of 7s. 6d. for each such child, but no attendance shall be reckoned for the purpose of calculating such average attendance, unless it is an attendance as defined in the said Minutes,” *i.e.*, Minutes of the Education Department in force for the time being.

L.—In calculating the provision for Grants to Residential Training Colleges, it is assumed that 100l. represents the cost of training a male, and 70l. that of training a female student, during two years. The College is credited annually with 100l. for each of its male, and 70l. for each of its female students, who, after probationary service as a teacher, obtains a certificate; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in residence. (See Articles 122–126 of the New Code.)

Grants are also made to Day Training Colleges, and to Day Queen’s Scholars who attend a Residential College, under Article 127 of the New Code.

M.—This Sub-head provides for expenses to be incurred in carrying into effect the provisions of the Education Act which relate to the organization of school districts.

* It is sufficient to add *five-and-a-half* instead of *seven* months at the increased rate, because payment is ordinarily a few weeks in arrear of inspection.

G.—Section 9 of the Education of Blind and Deaf-Mute Children (Scotland) Act, 1890, enables the Scotch Education Department to give aid from the Parliamentary grants to a school or institution in respect of education and industrial training given to blind or deaf-mute children, to such amount and on such conditions as may be directed by or in pursuance of the minutes of the Scotch Education Department in force for the time being.

H.—Section 67 of the Education (Scotland) Act, 1872, provides, *inter alia*, that “Where in any parish or burgh a school rate of not less than three pence in the pound on the rateable value of such parish or burgh shall be levied, and the whole produce of such rate is less than twenty pounds or than seven shillings and sixpence per child of the number of children in average attendance at the public schools provided by the school boards in such parish or burgh, such school board shall be entitled, in addition to the Parliamentary grant in aid of the public schools provided by them, to such further sum out of moneys provided by Parliament as will, together with the produce of the rate, make up the sum of twenty pounds or seven shillings and sixpence for each such child.”

L.—Under Article 118 of the Scotch Code, a limited number of pensions may be granted to certificated teachers who have been employed in that capacity since 1862, when the former Minutes relating to pensions were cancelled. Under a Minute of the Committee of Council on Education, dated the 16th June 1884, it is provided that the limit imposed by Section 6 of Article 118 of the Scotch Code shall not affect the claims of teachers who were employed before August 1881.

M.—In calculating the Estimate for Grants to Training Colleges, it is assumed that 100 L. represents the cost of training a male, and 70 L. that of training a female student, during two years. The college is credited annually with 100 L. for each of its male, and 70 L. for each of its female students, who, after probationary service as a teacher, obtains a certificate; at the same time the total amount of the grant is limited to 75 per cent. of the approved expenditure, and also depends upon the number of students for the time being in training. (See Articles 86–90 of the Scotch Code.)

* It is sufficient to add five instead of six months at the increased rate, because payment is ordinarily a few weeks in arrear of inspection.

EXTRACT from Letter of the Master of the Rolls, dated 18th December 1893.

Since December 1892 the following Volumes of Appendix to our Thirteenth Report have been issued:—

1. Calendar of manuscripts in the House of Lords, 1690-1691.
2. Calendar of manuscripts of the Marquis of Salisbury, Part IV., 1590-1594.
3. Reports on the manuscripts of Sir William Fitzherbert, Bart., the Earl of Ancaster, &c., &c.

And the following volumes have been presented to Parliament, printed, and returned to press for issue within a few weeks.

4. The manuscripts of the Duke of Portland, Vol. II., with Index to Vols. I. and II.
5. The manuscripts of the Earl of Lonsdale.

Reports on the following collections of papers, each of which will fill a volume by itself, are in the printer's hands, and considerable progress has been made at press with some of them, viz., those of:—

- The House of Lords, 1692, &c.
- Lord Kenyon.
- The Duke of Rutland, Vol. III.
- The Duke of Portland, Vol. III.
- Mr. J. B. Fortescue, Vol. II.
- The First Earl of Charlemont, Vol. II.
- The Marquis of Ormonde.

And a volume reporting on collections in Scotland, including the Duke of Roxburghe, Marchmont papers, Strathmore charters, and the Earl of Seafield.

Reports on the manuscripts of the Earl of Buckinghamshire and of Lincoln City are also in type.

Other completed reports in the hands of the Commissioners ready for the printer are those on the collections of:—The Duke of Somerset, the Earl of Dartmouth (continued), the Earl of Lindsay, Mr. Theodore J. Hare, Mr. Wykeham Martin, the Corporations of Bury St. Edmunds, Hertford, and Great Grimsby, and the Dean and Chapter of Worcester.

The chief private muniments upon which the inspectors under this Commission are at present engaged, are those of The Earl of Carlisle, the Earl of Leicester, Lord Middleton, Lord Mostyn, Lady Buxton of Shadwell, Mr. Kingsmill, and Mr. Popham, of Littlecote; in addition to those of Duke of Portland and Mr. Fortescue, already partly reported upon, and which alone will furnish material for several volumes.

With regard to the progress made in calendaring the House of Lords papers, I have to report that the amount of manuscript matter compiled during the current year is estimated to be equal to about 600 octavo pages; it brings the Calendar down to January 1706. The Editors have also been engaged in passing through the press part of the volume beginning with 1692, to which I have already referred.

Many other collections could be named which would be accessible to the Commissioners if there were a reasonable prospect of their being dealt with in the course of next year; but it is probable that the work of completing at press or in manuscript the reports on the numerous collections I have named above, will fully occupy the time at the disposal of the inspectors.

Note.—This Commission was appointed by the Universities (Scotland) Act, 1889 (52 & 53 Vict. c. 55), to inquire into and to regulate the constitution and administration of the Scottish Universities and Colleges thereof. The powers of the Commission were extended to January 1893, by Order in Council dated 30th July 1891, to January 1894, by Order in Council dated 5th August 1892, and have been further extended to 1st January 1895, by Order in Council dated 26th August 1893.

EXTRACT from Secretary's Letter, dated 29th November 1893:—

Since the beginning of October 11 meetings, five of which were Committee meetings, have been held. Evidence was heard at only one of these meetings, all the rest being of a deliberative nature, at which the principal business occupying the attention of my Commissioners was the consideration of objections and amendments to 11 time-expired Draft Ordinances.

Three of these have already been submitted to the Secretary for Scotland for submission to Parliament, while one is meanwhile withdrawn. The remainder will in due course be forwarded for submission to Parliament.

A Draft Ordinance dealing with the salaries of the Professors in the University of Aberdeen is being prepared, and will shortly be issued to the University.

Upwards of 30 Ordinances have been drafted, or are in course of preparation, dealing with specific Foundations in the various Universities.

The Financial Ordinances regulating the Parliamentary Grant in the Universities of Glasgow, Aberdeen, and Edinburgh, together with several other Ordinances, have lain the statutory period before Parliament, as prescribed by the Act, and only now await the sanction of Her Majesty in Council.

On 19th December 1892 three Draft Ordinances relating to the University of St. Andrews and University College, Dundee, were issued.

These Draft Ordinances were framed by my Commissioners at the request of the University and of Dundee College on the assurance that the authorities of the University and of Dundee College would agree to the terms of a Bill to confirm certain Agreements with regard to the affiliation of the College to the University, which the Secretary for Scotland consented to introduce into Parliament, provided the University and College authorities were unanimous in desiring it. After considerable negotiation, it became evident that the assurance as to the requisite unanimity would not be made good, and accordingly the Bill was not proceeded with. On 24th March, my Commissioners issued a Draft Ordinance, dealing with the financial relations of St. Andrews and Dundee, on the assumption that there was to be no new agreement between the College and the University. The period for lodging objections to this Draft Ordinance expired on 24th June. It was, however, represented that, as the new arrangements for a Summer Session at St. Andrews had not been completed, it would be exceedingly difficult for the University Bodies to consider the Draft Ordinances during the summer. My Commissioners, therefore, acceded to the request of the University Bodies, and granted an extension of the time for lodging objections to 1st November. At that date it was represented that in consequence of various disputes in the Court and in the Senatus of St. Andrews it had been impossible to arrive at definite decisions with regard to the points raised by the Draft Ordinances, and my Commissioners were asked to grant a further extension of the time for lodging objections. They, therefore, extended the period to 15th December next.

The Powers of the Commissioners have now been in force since January 1890, and during the period between then and now the Commission has met over 300 times in Edinburgh and London. These meetings embrace the sittings of Committees on Arts, Science, Medicine, Finance, Bursaries, Music, and on other subjects.

In view of the number of subjects yet to be dealt with by Ordinance, it is difficult to give any definite forecast of the probable duration of the Commission beyond the time laid down by the last issued Order in Council. It is probable, however, that a further extension of the powers of the Commission for one year may be necessary.

The Commission have now practically concluded the hearing of all the evidence which they think it necessary to take, and hope to be able to present their Final Report about Easter next. It will probably take two or three months' time from the date of such presentation to superintend the publication of so much of the large amount of information collected by the Commission as it may be necessary to publish.

EXTRACT from Secretary's Letters, dated (a.) 18th November and (b.) 4th December 1893 :—

(a.) The Commission has now practically finished taking evidence, and is now waiting the completion of the experiments being conducted by the North of England Institute of Mining Engineers before considering the Report.

(b.) I have communicated with the Secretary of the North of England Institute of Mining Engineers, by whom the experiments are being undertaken, and am informed that it is impossible for them to say when these experiments will be completed, or even to give an approximate date. I would point out that if these experiments had been undertaken by the Commission the expense would have been very great.

EXTRACT from Secretary's Letter, dated 14th November 1893.

"The Commission was appointed by a Royal Warrant, dated 13th June 1892. Meetings have been held from time to time, and two tours of inspection of lighthouses and light vessels round the coasts of the United Kingdom have been made.

"A first Report, dated 8th December 1892, has been presented to both Houses of Parliament, and a second Report will probably be presented before the close of the present financial year.

"It is possible that the work of the Commission may end with the issue of the next Report, but at present it cannot be definitely stated whether this will be so or not."

EXTRACT from Secretary's Letter, dated 2nd December 1893.

The Commissioners were appointed in December 1892 to inquire whether any and, if any, what land in the Counties of Argyll, Inverness, Ross and Cromarty, Sutherland, Caithness, and Orkney and Shetland, now occupied for the purposes of a deer forest, grouse moor or other sporting purposes, or for grazing, not in the occupation of crofters or other small tenants, is capable of being cultivated to profit or otherwise advantageously occupied by crofters or other small tenants. They held their first meeting in January, 1893. They were able to commence Public Sitings in Skye about the middle of April, and have carried on their inquiries in four of the Counties named, with few intermissions, till the beginning of November. They have held meetings, and inspected all lands of the character described in the Remit, in the Island of Skye. They have also conducted inquiries in certain districts of Inverness and Ross. They have also pursued and concluded their inquiries in the County of Caithness and in the County of Sutherland, as also along the Eastern watershed of the County of Ross from the Kyle of Sutherland to near Alness.

The investigations necessary in the remaining portions of the Counties of Ross and Inverness, and in the other Counties mentioned in the Remit, will, it is anticipated, be completed in course of next year. After completing their inquiries the Commissioners will necessarily occupy some little time in adjusting their Report. It is impossible to state the time which will be required, but confident hopes are entertained that their labours will be satisfactorily completed before the close of next year.

EXPLANATIONS.

CIVIL SERVICES.

Class I. Vote 9.—PUBLIC BUILDINGS, GREAT BRITAIN.—The excess was caused by a large increase in the rentals of the premises occupied by the National Debt Commissioners and Public Works Loan Commissioners. The new arrangements, which were retrospective, were not completed when the Office of Works prepared their Supplementary Estimate in February 1893.

Class II. Vote 35.—LOCAL GOVERNMENT BOARD, IRELAND.—The excess arose under the heads of (i) Enquiries under the Labourers Acts; (ii) Grants in Aid of Medical Relief. The possibility that a Supplementary Estimate would be required was not realized when the Supplementary Estimates were prepared, early in February 1893.

Class III. Vote 5.—COUNTY COURTS.—The excess was due to a large increase of business in the last quarter of the year, and it was not anticipated when the Supplementary Estimate was prepared, early in February 1893.

Class III. Vote 16.—SUPREME COURT OF JUDICATURE, IRELAND.—The excess was caused by heavy expenses in connection with the trial of Election Petitions, and the charges which came in course of payment towards the close of the financial year were much larger than had been anticipated when the Supplementary Estimate was submitted, early in February 1893.
